INDUSTRIAL LINING

# About Company

Established in the year 1989, in Vadodara (Gujarat, India), we, "Unicon Industrial Lining", are renowned as an affluent manufacturer and supplier of a wide array of Industrial Tank, Industrial Pipe, Chemical Plant Machinery and Water Treatment Plant Equipment. The offered products are highly demanded in the market for their features like easy to install, accurate functioning, high efficiency, hassle free performance, low maintenance and long service life. These products are manufactured using supreme grade raw material and the most-modern production technology in compliance with the international standards.

We are backed by the state-of-the-art-infrastructure that sprawls over a wide area of land. In order to function smoothly and efficiently, our infrastructure unit is further divided into various departments like manufacturing, quality testing, R&D, sales and marketing, etc. Also, our highly skilled professionals are able to maximize the production capacity of the firm. We have installed advanced machines and technologies in our manufacturing unit, which enable us to manufacture flawless range of products within the committed time frame.

## Application Area

Industrial Sheds / Warehouses

Manufacturing Units

Chemical and Pharmaceutical Industries

Oil and Gas projects

Petroleum Projects

Fuel Stations

Power Projects

Cooling Towers

Commercial High Rise and Mid Rise Projects

Residential High Rise and Mid Rise Projects

High End Residential Bungalow Projects

Resorts and Luxurious Weekend Villa Projects

Schools, Hostel buildings, and various

educational institutes.

# Why Us?

## Benefit to your Company

As principal service providing enterprise, we have always known many ups and downs in the industry arena. Because of our understanding in the anxious field, we are capable of fixing a place in the industry. With the support of our experienced personnel, we have been implementing perfect services to our honored patrons in the best possible way. Patrons can buy these services at economical rates.

## Our patrons prefer us to

- Cost-effectiveness and timeliness
- Abilities to think differently than others in competition
- Flexibility in business plans as per clients requirements
- Client-centric
- Task execution within the budget
- Experienced professionals
- Industry leading prices
- Transparent business approach

### Our Mission

The company promoters enjoy high credibility and trust of its clients and believe in quality, timely delivery, and high efficiency in work and customer satisfaction. The company is keen to cater to the needs of its clients for which quality is important. To reduce production cost by adding sophisticated new machines and giving its benefit to our valued customers. To export about 30% of product – matter already initiated with the parties.

### Our Vision

Focus on building long term business relation with customer ensuring better understanding of customer needs and customer satisfaction and to supply product to best optimal cost. To establish our company amongst one of the largest players in all departments of our core competency. Updating manufacturing facility. Innovation through experience.

### Domain Expertise

This level of excellence is achieved by flawless teamwork, an eye for detail, a no-compromise attitude, a passion for putting our best into every task - and the desire to overcome every challenge.

### Our Team

Eyeing the emerging trends and forecasting future needs, we sharpen our focus on infrastructure and invest in it. This approach has helped us to stand apart in our segment. With better tools and infrastructural prowess, we distinguish ourselves as a company capable of meeting client's exact needs.
